Connect with Nature

We know children love to go on a bear hunt ... but what about a bug hunt!?

It is Spring and there are lots of little creepy crawlies out and about. Have a look under leaves, on the bark of trees, under stones and even in ponds if you have any nearby. What did you find?

How many legs or wings did it have, what colour was it? Can you find out what it was? You can draw a picture of it or, if you can, take a photo and try researching when you get home.

You can look online to find out what it might be – The Woodland Trust has a great resource to help:
<https://www.woodlandtrust.org.uk/media/48349/minibeast-hunt.pdf>

Don't forget to wash your hands regularly for at least 20 seconds.
