

TIPS FOR #OUTDOORPLAY

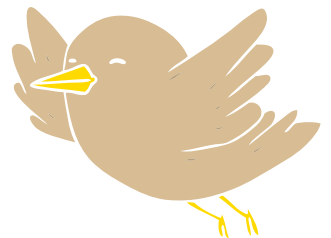

Nature scavenger hunt

You can do this anywhere outdoors. Take a paper bag to collect the treasures you find or if you have a camera you can take photos instead.

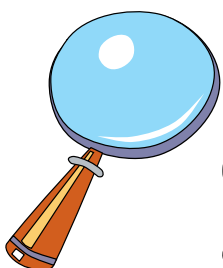

Can you find and collect things in nature of different colours, textures, shapes and sizes?

What things can you find that are white, green, brown, blue or yellow?

What about things that are smooth, soft, hard, bumpy, rough, shiny or fuzzy?

Can you find things that are long, small, round, big or flat?

Can you spot any wildlife such as squirrels, birds or insects?
